AGENDA

INTRAREGIO

1ST INTERNATIONAL CONFERENCE

A EUROPEAN RESEARCH STRATEGY FOR INTERMODAL TRANSPORT

LAS PALMAS DE GRAN CANARIA
ELDER MUSEUM OF SCIENCE AND TECHNOLOGY
17-18TH APRIL

The INTRAREGIO consortium is pleased to announce the first international conference on “A European Research Strategy for intermodal transport” which will be held in Las Palmas de Gran Canaria on 17th and 18th April 2013. The conference aims at contribute at the optimization of research and innovation transport policies by defining a targeted research strategy for intermodality and specifically at:

- Giving advice to regional authorities and further stakeholders on the coordination of RTD policy development and support the consideration and integration of transport related concerns into RTD policies.
- Formulating recommendations to private and public RTD actors on research strategies to be tackled in the future and spread knowledge on successfully developed technologies and procedures for improving transport modes.
- Presenting and debating on successful cluster policies and strong innovation systems supporting the exploitation of research results into the market.
